You are welcome to preview the cattle anytime December 5th - 7th.

The online auction will close in lot order starting at 1:00 pm on December 8th. Bid online or on site!

Williamson Land & Cattle

Frontier Live Sale

The auction (and lunch) will take place at The Homestead 191 in Melville, MT

Our Mission

Provide genetics and services that help cattle producers attain more freedom and profitability in their business and life.

Our Vision

Indreland Ranch is holistically and regeneratively managed and operated to produce healthy nutrition and environment for people, livestock and wildlife. This is accomplished by resilience to economic and environmental factors and by providing opportunities and profit to all involved. It is managed and operated by a team of motivated, goal oriented and open minded individuals that work together in a respectful manner.

Lincoln and Erin Burggraff joined our team almost 4 years ago and are a vital component of our operation! Lincoln manages the cow herd and forage and Erin helps with our social media, grazing records and many other things! We appreciate their efforts and commitment to Indreland Ranch!

Special thanks to our dedicated team!

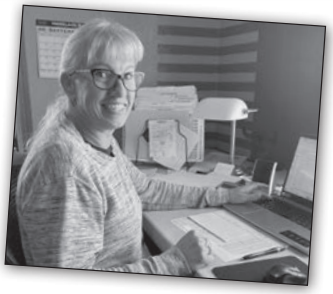

Wendell Eichorn joined the team this year as an apprentice and spent most of the year on our higher elevation lease rotationally grazing yearlings and cow/calf pairs!

Thank you to our 2026 second year apprentice, Charlie Smillie, who spent this year mostly on the home ranch rotating cattle on grass and learning about flood irrigation!

Paula Berry has been helping us in the office for 15 years! We really appreciate her dedication and willingness to help with whatever comes up!

About Indreland Angus

Our mission is to provide genetics and services that help cattle producers attain more freedom and profitability in their business and life.

Indreland Angus originated in 1977. That makes forty-nine years in the registered Angus business. Our production philosophy is that cows must consistently excel at converting our basic grass resource to beef. Practicing this philosophy has refined our cowherd into trouble free and productive cattle. We do not select for any extremes in performance but demand functionality in our cattle. We do practice line breeding and strive to produce as many ½ and ¾ blood calves as possible. All the bulls have been DNA tested to identify the sire. We have included individual cow weights for your information. Ultrasound scan carcass data on the sale bulls is also included at the back of the catalog. Foot scores, updated weights and Sensitivity Scores will be available on our website and at our open house/sale day.

	Wt.	Ht.	BCS
Yearling heifers	754	46.6	5.0
2 year old cows	809	48.2	4.3
3 year old cows	898	49.2	4.5
4 years & older cows	1034	49.4	4.5

Since weaning the end of January, the bulls have been on hay and grass plus an energy supplement until greenup, These bulls have never had their feet trimmed. Our objective with this bull development program is: "What you see is what you get." These bulls should maintain themselves and keep gaining at your place until they mature. You can be confident that these bulls will get the job done and not need much maintenance.

Welcome to Indreland Angus,

We want to thank all our loyal customers over the years and extend a hearty welcome to anyone that is interested in learning more about our program.

The land, the cattle and the people – we are blessed in many ways! Our area of operations had a challenging year throughout 2026. Precipitation was very limited early and modest at best later on. These kind of years are precisely why we manage like we do. We are happy to report that the land, the cattle and the people are doing well. It is very gratifying to witness the resilience part of our own vision come into play. We believe this market provides huge opportunity for cattle producers to make plans to get costs under control. As always, we believe the genetics put into a cowherd are the most basic building blocks - Seek out and buy cattle that will pass on some of the cost saving traits to their progeny, things like longevity, fertility, doability and pay attention to $EN. These traits are bred into and doubled up in Indreland cattle. Please note, we will again be having a spring bull sale with about 40 2 year old bulls on May 27th.

We hope this finds everyone well and optimistic and excited for the road ahead. Take things head on and ***Dare to be Different.***

Best wishes to all,

Roger & Betsy Indreland

Sale Information

ON-LINE SALE FORMAT: Individual videos of the bulls and group videos of the females are available for viewing on www.IndrelandRanch.com, www.frontierlivesale.com, or WilliamsonLandandCattle.com. Being a December sale, it is possible to have a nasty storm around sale day, therefore we give people the option of viewing the bulls and bidding online as well as an open house the weekend before the sale. The open house will start on Saturday, December 5th through sale time on Monday, December 7th. The sale will be an online sale, without a live auctioneer, but bids will be taken from the crowd. It is much like a regular sale, but much lower key. At 1 pm on December 7th, the lots will start closing in sale order starting with the bulls, then the choice of our registered bred heifers, then the other bred heifers, then the Melton bred cows, then the Indreland bred cows. Each lot will be given a minimum of 15 seconds and will continue until there is no competitive bidding.

NEW THIS YEAR! The auction (and lunch) will take place at The Homestead 191 (1996 Hwy 191 North, Melville, MT) - right behind Café 191 where the sale was last December - Just a few miles up the road from the ranch!

There will be several options to bid:

- You can come to the ranch on sale day, December 7th, look at the bulls/females in the morning, have lunch and bid on site – much like most auctions.
- You can be on your computer and bid as the lots close starting at 1 pm on December 7th. NOTE: if your internet connection is marginal, please call ahead of time of sale time so we can try to help or make arrangements for someone to be on the phone with you.
- You can call any of the representatives listed on page 3 and they will get the bids placed for you.
- You can come look at the bulls/females during the open house, December 5th – 7th. You can then place a proxy bid online, indicating the maximum you would pay for the bull/heifer/cow. No person, including us, will know what that number is. When that lot comes up, if there is competitive bidding, the computer will bid for you up to that amount. For example, you want to bid on 3 lots but can't attend or be at a computer, or your internet service is marginal. You can place a proxy bid ahead of time on those 3 lots. No one knows what your proxy bid is. If your proxy bid is $8500 and the starting price is $6500, with no online or onsite bids, you will buy the bull at $6500. If there are online or onsite bids, the system will bid on your behalf up to (but not more than) your proxy bid. Just know that nothing beats a proxy bid – your bid WILL be first!

This is a secure and convenient method to buy your bulls or females. Proxy bidding is an easy way around a poor internet connection. Please consider coming to look at the bulls/females ahead of time, go home, register/log in and bid with confidence!

FRONTIER Live Sale
www.frontierlivesale.com

This sale is not a standard format, both proxy bidding before the sale date, and live bidding will be available, but there will be no auctioneer.

This sale will be broadcast live over the internet via Frontier Live Sale. The sale will begin with the ability to place proxy bids now through December 7th. On December 7th at 1:00 p.m., we will go through the lots in sale order, on-site and online bidders will have the opportunity to place bids, when the bidding ceases, the lot will be sold to the high bidder. Proxy bids will directly compete with on-site, and online bidders. Duration will be a minimum of 15 seconds per lot.

To place bids, you must PRE-REGISTER, go to the Indreland Angus Ranch Sale page at www.frontierlivesale.com and click "Register/Login to Sale". You must have an account with Frontier Live sale, and you must then register for this auction. Registrations do not carry over from sale to sale.

For those who wish to simply view the sale without registering, login with your Facebook, or Google account. If you don't have a Facebook or Google account, a guest login will be provided.

Instructions for watching the sale can be found at www.frontierlivesale.com

We encourage you to register early to avoid any problems and make sure you are set up to view the sale. Visit www.frontierlivesale.com for all the details!

BULL PREVIEW: December 5 - 7 at the ranch.

ON-LINE SALE: December7, 1:00 p.m. (MST) Lots start closing in sale order. Females sell last.

LOCATION: Indreland Ranch - 12.25 miles north of Big Timber on Hwy 191 N, then east on Glasston Road for 1.7 miles. **NEW THIS YEAR!** The auction (and lunch) will take place at The Homestead 191 (1996 Hwy 191 North, Melville, MT) - Just a few miles up the road from the ranch!

ANNOUNCEMENTS: Announcements made sale day take precedence over any printed materials.

LEASE BULL: Many of the bulls were leased for the breeding season. Upon return, they were quarantined for three weeks and successfully completed testing as outlined in our herd health info below.

HEIFER BULL: These bulls have met our criteria to be used on heifers: Birthweight less than 75 lbs. and BW EPD less than or equal to +1.0 and any other knowledge of the pedigree, etc. on the bull. ***50% of the bulls in the sale meet our criteria as a HEIFER BULL. ULTRA HEIFER BULLS: Birthweight less than 70 lbs. and BW EPD less than or equal to +0.0***

DELIVERY: Bulls will be delivered by the end of December. Free delivery in Montana. Out of state deliveries at cost. Your cooperation in taking delivery is greatly appreciated.

WINTERING: Arrangements can be made to keep bulls past December 31 at $5 per head per day.

GUARANTEE: Bulls are fully guaranteed. If for any reason you are unhappy, we request the opportunity to solve the problem. Replacement bulls of like quality will be provided at no charge in the case of a dead or injured bull that is unable to finish the first breeding season. Credit can also be given.

RETAINED INTEREST: We are retaining 1/3 revenue sharing interest on all sales of semen of each bull listed in this catalog unless otherwise noted. Possession and all other interests, including salvage value, belong to the owner.

HERD HEALTH INFO:
We take our herd health very seriously. Katie Rein, DVM, has guided us through our herd health protocol and developed our biosecurity measures.

The bulls in the sale have been vaccinated as calves at branding with Vision 7 with SPUR and Vista Once SQ. Last fall they received Bovishield Gold One Shot and Ultrabac 7 Somubac. Before weaning in January, they received Somubac and Nasalgen 3 PMH. They were vaccinated with Virashield 6 VL5 HB during their breeding soundness exams in May and October.

Indreland Angus Ranch continues to lease out bulls, including some of the bulls in this sale. These bulls were diligently quarantined upon return to the ranch. Additionally, all these bulls went through a rigorous testing protocol and tested negative for trichomoniasis, Johnes, brucellosis, anaplasmosis and bovine leukosis virus. Please contact our veterinarian, Katie Rein, DVM, at 406-350-0342 with any questions.

Join us for this educational opportunity!
Sunday, December 6

4 pm Join us at The Homestead 191 in Melville for a short presentation by Halter (Virtual Fencing). We collared our cows, heifers and bulls this summer and have been very pleased with the results. Our crew is very excited about the labor savings not putting up as much electric fence! Josh Morrison will be there to do a short presentation and answer questions. Halter is sponsoring snacks and beverages too!!

Additionally, we are hoping that a representative from Tenet® Beef will be able to join us that evening to talk about tenderness testing as well! We tested our bulls and have several in the sale that are Tenet® Certified as denoted by the Tenet® logo by those lots in the catalog. About 50% of our current herd sires are Tenet® Certified.

Tenet® Tenderness Test - New this year!

We started testing herd sires and a few other bulls in 2025. Almost half of our herd sires were Tenet® Certified. This year we tested all our bulls born in 2025. A significant portion tested positive for it, including several in this sale! The Tenet® logo appears next to the lots that are Tenet® Certified. Frank Hendrix created Tenet® to introduce scientific standards to accurately identify and select cattle for tenderness for the first time. He proved tenderness is an inherited trait. According to many USDA studies of beef consumers, the number one problem in the industry is tenderness. Excessive fat is wasteful and expensive to the entire cattle industry. Naturally selected beef tenderness through Tenet® certification removes the top consumer concern and has a positive impact on both feedlot and grass-finished beef. Environmentally, less time is required in a feedlot, reducing the cost of finishing for marbling/fat, and confinement related health and wellness concerns. The benefit of tenderness to the grass-finished industry is a game changer. Tenet® certified cattle and beef represents the new quality paradigm and the highest level of beef quality in existence.

Stockmanship at Indreland Ranch

In addition to our year-round efforts to use good stockmanship with all our cattle, Anderson Livestock Services (Nathan & Jennie Anderson) of Melville, have worked horseback and on foot with our bulls again this year using their low stress stockmanship skills. Nathan assigns each bull a Sensitivity Score as he loads them in a stock trailer. The bulls learn that the trailer is a good place to be. We have noticed a big difference in how the bulls load when we deliver them– they just hop in the trailer! We are excited to work with Nathan and Jennie to offer bulls that have learned to load under a low stress environment. The Sensitivity Scores will be available on our website and at our open house/sale day. Nathan will be around sale day to answer questions or give him a call at 406-930-2163. For more information visit www.AndersonLivestockServices.com.

What is $EN?

The American Angus Association's definition: "A cow energy value ($EN) is available to assess differences in cow energy requirements, expressed in dollars per cow per year, as an expected dollar savings difference in future daughters of sires. A larger value is more favorable when comparing two animals (more dollars saved on feed energy expenses.) Components for computing the cow $EN savings difference include lactation energy requirements and energy costs associated in differences in mature cow size."

Indreland Angus $EN

According to the 2026 Sire Evaluation Report, the average for $EN in the Angus breed for non-parent bulls is -18. Our average $EN for our registered sale bulls is +23. With the rising cost of feed, we think the $EN number really should be evaluated and, in our opinion, is the first step to low input production. In this case, ***the difference of $41.00 is a cost savings on EVERY animal in your herd, PER YEAR. 86% of the sale bulls rank in the top 3% for $EN for non-parent bulls, 55% of all the bulls are in the top 1%.***

Indreland Angus Bred Females

- Lots 75, 80, 81 and 82 offered by Indreland Angus are home raised
- All females were ultrasound preg check by Katie Rein, DVM of Crazy Mountain Vet Service
- Vaccinated with Virashield 6 VL5 HB this fall
- Add $100 to bid price for transfer of registration papers (except bred heifers)
- Calves will need to be parentage DNA tested to determine sire
- Selections to be made and picked up by December 20, 2026 unless other arrangements have been made with Indrelands
- Indreland females will be repreg checked on Dec. 2 (bred heifers after selections are made)

75 CHOICE OF INDRELAND REGISTERED BRED HEIFERS

- Up to 10 head, 3 head minimum - Select out of 90 bred heifers - Registration papers included
- Bred to Indreland calving ease bulls - Due to start calving May 7th
- Pedigrees, EPDs, preg check info, carcass ultrasound scan data, foot scores, bull info available on request

76 17 HEAD INDRELAND COMMERCIAL BRED HEIFERS

We purchased the mothers of these heifers from long time bull customer Pat O'Neill (Terry, MT) in the Spring of 2025. They never missed a beat! These all black heifers were born in May and are generations deep with Indreland genetics. Pat has been buying bulls from us for 10+ years. They are bred to start calving May 7th and bred up early to Indreland Angus calving ease bulls.

77 18 HEAD COMMERCIAL BRED HEIFERS

Guest Consignor:
JOHNNY TABER, SHAWMUT, MT
(312) 257-0081 Johnny cell

- Est. current weight: 900 # All black heifers with one baldy!
- Johnny has been a customer of ours for several years and shares the same low input philosophy. These home raised heifers were ultrasound preg checked by Crazy Mountain Vet Service and given Virashield. They are bred to Indreland calving ease bulls (Lot 49 plus one other)
- 13 head will start May 1st for 40 days; 5 head will start April 1st for a 2 week window.
- Payback mineral, salt and apple cider vinegar. These heifers are gentle, easy to handle and cake broke!
- Heifers to be picked up at the ranch (Shawmut, MT) on or before December 15, 2026 unless other arrangements have been made with Johnny. The heifers will be repreg checked before shipping.

78 65 HEAD COMMERCIAL BRED HEIFERS SELL AS ONE GROUP!

Guest Consignor:
TTT Livestock LLC
Trevor, Amber, Aubrey and Teddy Smith
Cohagen, MT
(402) 540-7343 Trevor cell
trevorsmithasr@gmail.com

- Est. current weight – 975 lbs. Black heifers
- Bred for 23 days (July 14 – Aug 5) to Indreland Bulls (Lots 5 and 62, plus one other) and Calvo Red Angus Bulls
- Due date: April 20, 2027
- Preg Checked Sept. 29, 2026 by Ben Bennett, DVM, of Mountain Valley Vet Services
- The heifers were purchased from a reputation eastern MT ranch near Cohagen, MT
- Vaccinations: 2 rounds of PregGuard FP 10 before bull turnout
- Heifers are located at P Bar Ranch, McLeod, MT. To be picked up there by December 21, 2026 unless other arrangements have been made with the Smiths. The heifers can be repreg checked before shipping at the buyer's expense ($7/hd).

79 50 HEAD BRED COMMERCIAL COMING 3 YEAR OLDS

Guest Consignor:
ROYAL & JOSIE MELTON, FOREST GROVE, MT
(406) 248-2173 home mccreek@icloud.com

- Est. current weight – 950 lbs. - Black Cows
- Due Date: March 18, 2027 – 60 day breeding season – bred to Indreland Angus bulls
- Cows to be picked up at ranch (17182 Forest Grove Road, Forest Grove, MT 59441) by December 20, 2026 unless other arrangements have been made with Meltons
- Minimum purchase: 10 head (gate cut)
- Vaccinations: Virashield 6 VL5, Ivermectin pour on
- Cows will be repreg checked close to sale date.
- Royal and Josie have used Indreland Angus bulls for 14 years. They are strict in their culling. These cows have had their first calf, rebred and are ready to go to work for you!

INDRELAND ANGUS BULL SCAN DATA Clay Nash, Techinician

Beef Image Analysis (BIA) live animal carcass ultrasound is an automated chuteside software system that captures images and calculates trait measurements on an objective basis. The traits determined by BIA ultrasound software are: Ribeye Area (REA), Backfat Thickness (BF), Ribeye Area/Hundred lbs Live Weight (REA/CWT), Percent Intramuscular Fat (% IMF), Ribeye Shape Score (RES), Stress Score (SS), and Tenderness Score (TEND).

RES = Ribeye Shape Score.

Indicative of desired shape of the ribeye muscle. Correlated to eventual Yield Grade, Cutability and % Retail Product. Score ranges from 0.0 to 1.0.

Acceptable score is 0.35 or greater in yearling bulls, with an ideal score being 0.45 or better.

Ideal score in heifers is 0.35 or better, with acceptable scores of 0.30 or better.

SS = Stress Score.

Correlated to immune system strength of calf. Score ranges from 10-50.

10=No Stress, 20=Slight Stress, 30=Slightly Moderate Stress, 40=Moderate Stress, 50=Severe Stress.

Impacts DTF, ADG, WDA, TCOG, Health Costs, QG, and YG.

Ideal score is 20 or less.

TEND = Tenderness Score.

Correlated to actual Warner-Bratzler Shear Force (WB) in carcass ribeye steak at 12th rib location.

Correlation Coefficients between WB and TEND currently average 0.85 – 0.87.

Score ranges from 10-50. 10=Very Tender, 20=Tender, 30=Slightly Tender, 40=Slightly Tough, 50=Tough.

Acceptable score in yearling bulls is 28 or less. Ideal score is 25 or less.

% IMF = Percent Intramuscular Fat (Marbling).

.28 - 2.57 % IMF = USDA QG Standard (Practically Devoid of Marbling)

2.58 - 3.89 % IMF = USDA QG Select (Slight Marbling)

3.90 - 5.33 % IMF = USDA QG Choice- (Small Marbling)

5.34 - 8.55 % IMF = USDA QG Choice+ (Modest/Moderate Marbling)

8.55+ % IMF = USDA QG Prime (Abundant Marbling)

Halter®

Contain, move and monitor your cattle with Halter

- 24/7 visibility of your herd
- Increase productivity and weaning weights
- Significantly reduce fencing costs and maintenance
- Flexible grazing management with virtual herding

How it works

The collar
The lightweight, ergonomically designed collar transmits cattle data 24/7.

Direct to Satellite
Dependable remote coverage with direct to satellite connectivity, enabling limitless fencing in every terrain.

The app
The easy-to-use mobile app lets ranchers remotely manage and shift mobs, optimizing grazing & feed management with virtual fencing.

Thank
You!

Roger & Betsy Indreland
